### Profile

Enthusiastic Python Full Stack Developer with hands-on training in frontend and backend technologies. Skilled in Python, Django, SQL, HTML, CSS, JavaScript, and React for building responsive and database-driven web applications. Currently enhancing knowledge in AWS Cloud services to support application deployment and scalability. Strong problem-solving ability with a keen interest in continuous learning and software development. Familiar with AI-assisted development tools to enhance coding efficiency and productivity.

### Professional Experience

03/2024 – 04/2026  
Karaikudi

#### National Soft Tech

##### FULL STACK DEVELOPMENT TRAINING

(In association with BECIL – Government of India Enterprise)

Completed Python Full Stack Development training of Gained hands-on experience in frontend and backend technologies including Python, Django, SQL, HTML, CSS, JavaScript, and React. Developed knowledge in building responsive and database-driven web applications. Strengthened programming fundamentals, problem-solving skills, and understanding of full stack development concepts.

07/2025 – 07/2025  
Trichy

#### Codebind Technologies

##### WEB DEVELOPMENT INTERN

Gained hands-on experience in Full Stack Web Development using HTML, CSS, JavaScript, React.js, and Node.js.

Developed responsive and user-friendly web pages with dynamic UI features. Assisted in backend development and API integration to enhance application functionality.

Worked on debugging, performance optimization, and improving application efficiency.

Collaborated with team members on real-time projects, contributing to problem-solving and feature implementation.

### Education

2022 – 2026  
Karaikudi

#### B-E COMPUTER SCIENCE AND ENGINEERING

Sri Raaja Raajan College Of Engineering And Technology, Anna University  
(CGPA 8.2)

06/2021 – 04/2022  
Karaikudi

**SRI MEENAKSHI GIRLS'S HIGHER SECONDARY SCHOOL**  
HSC

### Skills

- |          |                        |                          |
|----------|------------------------|--------------------------|
| • Python | • C                    | • C++                    |
| • Django | • SQL                  | • HTML                   |
| • CSS    | • Java Script          | • React.js               |
| • AWS    | • REST API Development | • Responasive Web Design |

### Projects

#### ONLINE.FOOD DELIVERY WEBSITE [🔗](#)

Developed a fully functional food delivery website as part of my academic project. The platform allows users to browse menus, place orders, and track deliveries in real-time. The site features responsive design, secure login, and an intuitive user interface. HTML, CSS, JavaScript, PHP.

#### COLLEGE MANAGEMENT SYSTEM [🔗](#)

Designed and developed a dynamic web-based application to manage the college admission process efficiently. The system enables students to register, select courses, upload necessary documents, and track their application status. An admin panel allows college staff to review, approve, or reject applications. Built with a user-friendly interface and responsive design, this portal ensures transparency, reduces manual effort, and enhances the overall admission experience.
